

SPRING 2019 COLLECTION

BAGS WITH A CONSCIENCE

It's not just a cute bag! Our mission goes much deeper than that. We want to change the way you think about bags. Single-use plastic bags and bottles continue to devastate our land and oceans. There are also millions of "reusable" bags that can't be washed and/or break down after several uses and end up in our landfills.

LOVE BAGS are different. We use the finest quality, durable fabrics made from recycled plastic bottles, which will withstand a lifetime of use. We guarantee it.

Just as important, you need to look good! Our designs, prints and colors are always on trend, giving you that added sense of pride. You will not only be helping the environment, you will look fabulous doing it.

It's that simple. Fashionable, fun and functional bags that will help you reduce, reuse, and recycle.

Look good, feel good, do good!

Stuffs into its own stretchy pouch and comes with a quick-clip.

STRONG AND DURABLE
Holds up to 35lbs with a 5" gusset.

SI82 FLW COONLEY HOUSE

This STASH IT tote features a playful art glass window design from Avery Coonley Playhouse created by Frank Lloyd Wright in 1912. With asymmetrical geometric designs and suggestions of flags, balloons and confetti; the brightly colored windows bring to mind a parade. Since the Playhouse was intended for children's education and performances, this fun theme was entirely appropriate.

SI80 FLW SAGUARO

This STASH IT tote features a lively abstraction of cacti in a desert landscape. This design was a presentation drawing created by Frank Lloyd Wright in 1927 as one in a series of twelve seasonal themes for Liberty magazine covers. All twelve of the designs were considered too avant-garde to be published in the magazine at the time, but Saguaro Forms and Cactus Flowers were later executed in art glass.

SI87 FLW WATER LILIES

The stylized pattern on this STASH IT TOTE features waterlilies, common in the tranquil ponds of the Midwest and is adapted a drawing by Frank Lloyd Wright. This drawing is thought to be designed for an art glass screen in 1895 but never produced. This early example epitomizes Wright's ability to incorporate themes from nature and his philosophy of "organic architecture" - creating harmony between the natural world and humans through his architecture.

SI85 FLW LAKE GENEVA

This STASH IT tote features geometric patterns from the popular summer retreat located in southern Wisconsin. Businessman John Williams and developer Arthur Richards responded to its growing popularity by establishing a resort overlooking Lake Geneva in Wisconsin. The Lake Geneva Inn was designed by Frank Lloyd Wright in 1911. Demolished in 1970, one of the design highlights was the art glass windows which were conceptually based on a geometric tulip.

SI86 FLW LUXFER BW

This STASH IT tote features a design from Frank Lloyd Wright, who in 1897-98 served as a product designer for the American Luxfer Prism Company. During that time he patented 45 design variants of prism glass, an architectural glass used to redirect daylight in interior spaces. Wright's many designs for Luxfer are distinguished by their geometric patterning.

SI81 FLW HOFFMAN HOUSE

This STASH IT tote features a design made up of intersecting circles with square accents, which Frank Lloyd Wright designed for a rug in the Max Hoffman House in 1957 in Rye, New York. This rug was never executed for that house but, after Wright's death, Mrs. Wright had it manufactured for their home. The Completed rug can still be seen on the floor of the living room of Taliesin in Spring Green, Wisconsin.
