

ANDALOU

NATURALS

Dear Andalou Naturals Partner,

Andalou Naturals products are made with nature derived ingredients that are Non-GMO Project Verified, gluten free verified, certified organic, vegetarian, vegan, sustainably sourced and fair trade, and always cruelty free. While incoming ingredients are closely monitored, natural ingredients do vary from season to season and can yield color tone, scent or texture differences. Such variations will not affect the safety or efficacy of our products.

The product batches listed below have experienced natural viscosity and/or color shifts. They are safe for use, but do not meet our quality standards. We would like your help to please confirm inventory on hand of these batches so that we can send replacement product.

Inventory of these batches **MUST BE DISCARDED**.
